Subject: **Call for Application for Future Research Talent Program 2027– Australian National University**

The Australian National University, Australia, invited the University of Delhi to the Future Research Talent Program 2027. The program is for Science students of their selected partner institutions and will provide them with an opportunity to travel to ANU in 2027 to pursue collaborative research projects. Each FRT scholar will receive AUD\$8,500 to support their travel to Canberra, Australia and cover living costs there.

Attached to this email is a PDF poster/flyer for the 2027 FRT program. The link to the FRT webpage: science.anu.edu.au/FRT/India.

The Faculty of Technology and Cluster Innovation Centre is requested to circulate the Call for Applications to the third-year students in the B.Tech program.

There are 14 ANU Research Schools, Centres and Institutes that have put forward over 90 research projects open to FRT scholars. The students can select and apply to the research projects that align with their interests.

Research Areas:

- Astronomy & Astrophysics
- Biology
- Chemistry
- Computer Science
- Cybernetics
- Earth Sciences
- Engineering
- Epidemiology and Population Health
- Mathematics
- Medical Research
- Physics
- Science Communication

The applications need to be submitted to the Chairperson, International Relations latest by September 01, 2026, along with the following documents,

1. Application through the Head of the Department
2. Resume of the Student
3. Mark Sheet of 1st year and 2nd year of B.Tech
4. Passport Copy of the Student
5. Research proposal (max. 500 words)

The Call for Application is also available on the International Relations website under International Opportunities for students <ir.du.ac.in>.

With regards,

Neera Agnimitra
